F5

Gas Spring Monitor Arm

FlexiSpot

30% Product Assembly/ Disassembly Efficiency

24.1% The Shaft Structure Diameter Of Products At the Same Price

Gas Spring Monitor Arm

F5

Sleeve-Type Quick-Mount System

Quick installation and quick removal, modular installation is more labor-saving and worry-free compared to the bulky overall installation of the old bracket

Quick replacement

The upper part of the bracket can be replaced along with the screen.

36mm Diameter Sleeve

Stable and smooth adjustment of the screen, larger than the 29mm diameter of competitors at the same price, more stable and smoother

FlexiSpot

Common Features

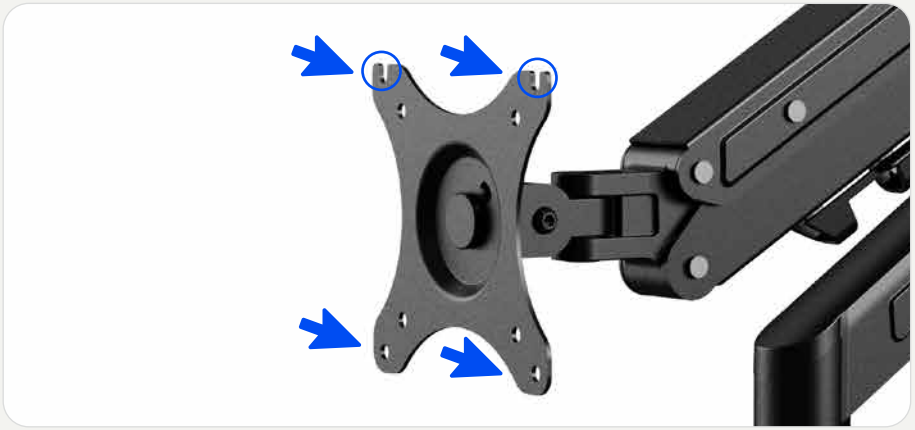

Pre-adjusted gas spring

2-9kg load-bearing gas spring pre-adjusted at the factory, eliminating the trouble of adjustment (adjustable screw holes are still retained)

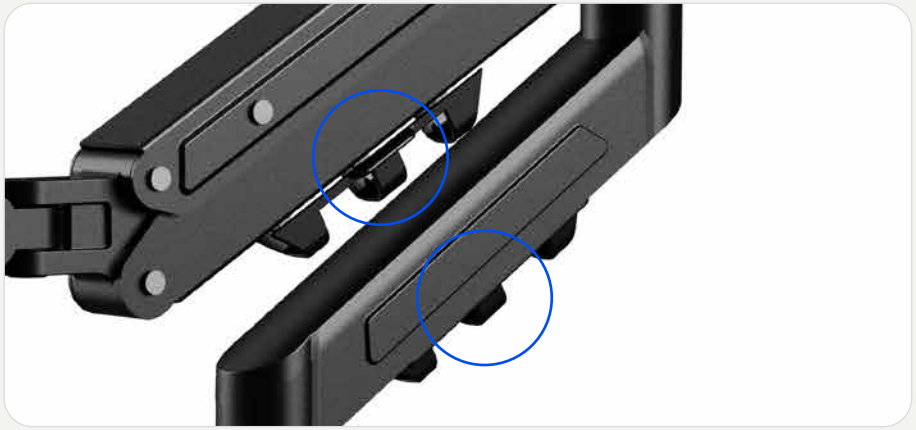

Economical gas spring

The overall price of the product is affordable, the basic functions are complete, and compared with the commonly used mechanical springs at the same price, there is no abnormal sound and it is more reliable

Semi-quick-release head

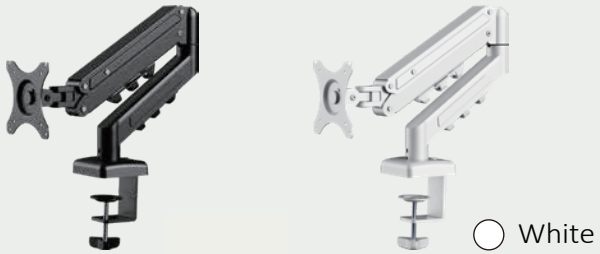

The gourd hole facilitates the pre-fixed installation of the screen, and the detachable upper arm allows the screen screws to be installed before the bracket is assembled

Upper and lower arm cable management

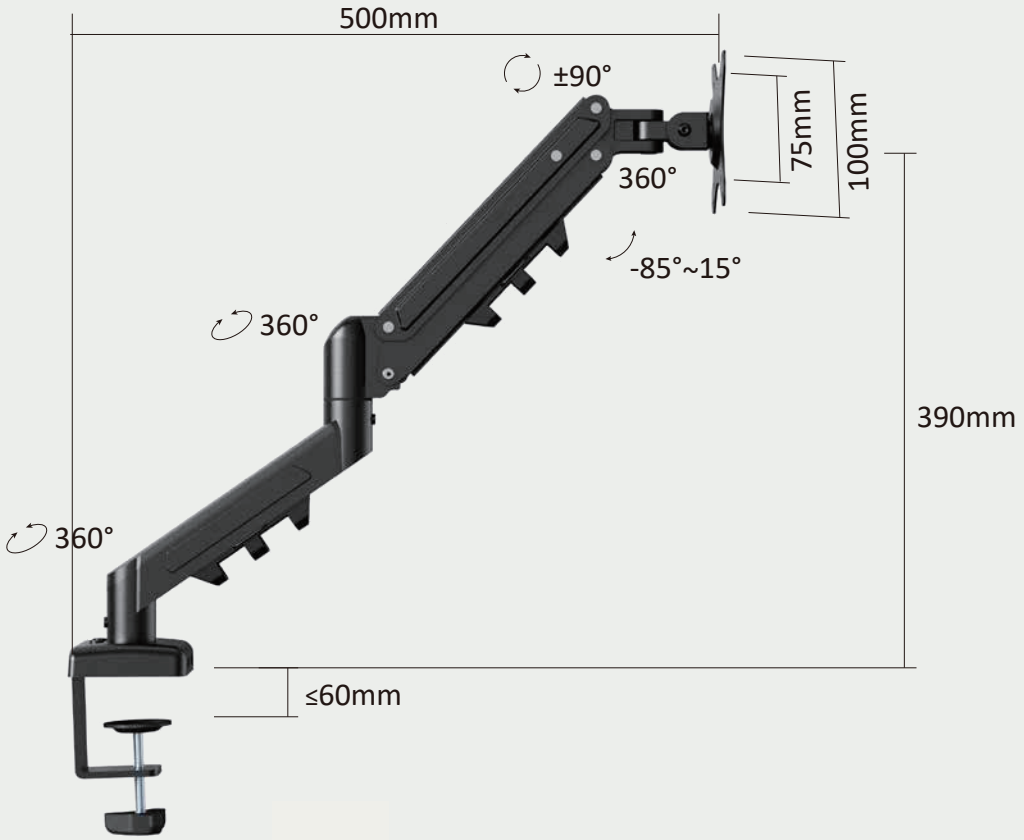

2 cable management joints are used to hide the monitor screen cables, store and guide the power cables below 8mm, and prevent the desktop cables from being messy.
